AGTC to Host First Quarter Financial Results Conference Call and Webcast on November 7, 2017

GAINESVILLE, Fla. and CAMBRIDGE, Mass., Oct. 31, 2017 (GLOBE NEWSWIRE) -- Applied Genetic Technologies Corporation (NASDAQ:AGTC), a biotechnology company conducting human clinical trials of adeno-associated virus (AAV)-based gene therapies for the treatment of rare and debilitating diseases, today announced that it will report financial results for the quarter ended September 30, 2017 after the market closes on Tuesday, November 7, 2017. AGTC management will host a conference call beginning at 4:30 pm ET that day to review results and provide a corporate update.

To access the call, dial 877-407-6184 (US) or 201-389-0877 (outside of the US). The passcode is 13671782. A live webcast will be available in the Events and Presentations section of the Investor Relations page at <http://ir.agtc.com/events.cfm>. Please log in approximately 10 minutes prior to the scheduled start time.

The archived webcast will be available in the Events and Presentations section of the company's website.

About AGTC

AGTC is a clinical-stage biotechnology company that uses a proprietary gene therapy platform to develop transformational genetic therapies for patients suffering from rare and debilitating diseases. Its initial focus is in the field of ophthalmology, where it has active clinical trials in X-linked retinoschisis (XLRs), X-linked retinitis pigmentosa (XLRP), and achromatopsia (ACHM CNGB3 & ACHM CNGA3). In addition to its clinical trials, AGTC has preclinical programs in optogenetics, adrenoleukodystrophy (ALD), which is a disease of the central nervous system (CNS), and otology. The clinical-stage XLRs and XLRP programs, the discovery program in ALD and two additional ophthalmology programs are being developed in collaboration with Biogen. In addition to its product pipeline, AGTC has a significant intellectual property portfolio and extensive expertise in the design of gene therapy products including capsids, promoters and expression cassettes, as well as expertise in the formulation, manufacture and physical delivery of gene therapy products.
